Writing through the Curriculum

Writing through the curriculum

Writing is an integral part of communicating and demonstrating understanding across all subjects. At Hayfield Lane, the capturing and recording of newly acquired subject knowledge is dovetailed with the high expectations for writing. Children are taught how to identify key information and supported to record their curriculum learning whilst practising their writing skills. This provides a golden opportunity for children to select and apply the organisation tools of writing, use a wide range of punctuation, distinguish between different tiers of vocabulary and levels of formality.
